HERE IS A SAMPLE IMAGE OF THE TYPING

While we cannot comprehend the cosmos and its laws, we have been blessed with the intellect to understand its existence. It is up to us to make the best of our life as per these cosmic laws and live happily with contentment and fulfilment.

Those who don't understand the cosmic laws, particularly, the Law of Karma, try and object to everything that happens in their life. They live without UNDERSTANDING life's meaning and purpose till this gift of life is eventually consumed and comes to an end.

As intelligent human beings, can't we see the Law of Karma in action? Don't we understand that if we plant tomatoes, we will not get mangoes? Doesn't our common sense tell us that good will be rewarded by good and bad by bad? What would you do if someone came and offered you flowers with a smile? Would you kick them in return? On the other hand, if somebody gave you numerous punches, would you return the gesture with a gift or a smile? We human beings know that our behavior, attitudes, and reactions are impacted by the actions of other people. We return good tor good and evil for evil.
